Hall Dining Review

Share your experience and help to serve better quality food in hall dining....

ADVANCE PROGRAMMING
CSE 2200

Presented BY:

Sk . Azraf Sami

Roll: 1907115

Objectives

★   Gather all students experience about hall dining.

★   Analyze these feedback as pie chart and table.

★   Ensuring transparency and accountability in the work of dining manager.

★   Manager will be more concern about food quality.

★   Hall administration will get more control on hall dining system .

Introduction

"Hall Dining Review" is a desktop app that will help a user to share his experience about hall dining. There is a problem that all hall boarders can't give feedback to the dining manager. So, it is impossible for dining manager to upgrade or add any item to dining. This app will help both students and dining manager to communicate in an easy way in one platform! Hall administrators also get a summary of student reaction about hall dining...

Future Plan

Hall dues payment system will be online payment system. No one need to stand on line to pay his hall dues.

Student can upload image with feedback about hall dining as a proof!

Make also android version of this desktop app!
